- National Interscholastic Swimming Coaches Association of America
- United States Diving
- United States Synchronized Swimming
- United States Water Polo

SYSTEM 5 Specifications

General

SYSTEM5 consists of a multi-sport computer console, swim and diving keyboard inserts, built-in clock calendar, and cable harness. Timing and placing capability for up to ten individual lanes. Includes data transfer to IBM or compatible computers. Timer is compatible with all COLORADO TIME SYSTEMS equipment.

Power

Primary power source includes eight (8) internal D-cell alkaline batteries for safety. Alternate power is 115VAC via wall transformer. Optional: 220V transfer.

Timing and Placing

Select timing resolution of 0.001 or 0.01 second with a timing range of 99:59.999.

Front Panel Display

Selectable lane or place finish. Total number of characters: 2,000. Race and Lane status, Pad status, Lane Arming status, and HELP text are displayed on the 25 x 80 line character LCD display to allow operator to see the entire race status at a glance. Includes on-screen battery gauge for monitoring battery power.

Keyboard

Keyboard uses removable inserts for multi-sport use. Swimming and Diving keyboard inserts included. Pace Clock, Synchro and Water Polo inserts and software are sold separately.

Splits

Race split times are printed as they occur. Far-end splits capability using single computer console.

Programming and Removable Keyboard Insert

The SYSTEM5 software can be customized and the new configuration is stored internally. Removable keyboard inserts and computer interface provide multi-sport capability.

Standard Software

- Race Memory** — "Meet Memory" provides typical storage of 500+ races which can be recalled later for printing or analyzing of meet results.
- Stored Splits** — All splits are stored in Meet Memory by lane following the finish for printout or recall.
- Relay Judging Software**
 - semi-automatic available with no additional hardware
 - fully automatic requires relay judging platforms
- Print-out showing early and late relay exchanges.

Multiple Inputs and Outputs

- IBMPC Parallel Port for Centronics parallel printer interface
- 2-9 Pin Serial RS-232 output for Meet Management software utilization
- Scoreboard interface for single or multiple-line scoreboards
- Separate Swimming I/O for true far-end splits
- Expansion Port for interface to Diving and other aquatic sports
- Computer Port 3 for software upgrades

Physical

Size: 13.5" d x 18.375" wx 8.5" h
(34.29 cm x 46.67 cm x 21.59 cm)
Weight: 11.6 lbs. (5.26 kg)

Warranty

Full two-year limited domestic warranty covering all parts and labor.

Accessories

- Choice of External printer. *NOTE:* Customer can use their own parallel printer.
- Carrying Case, protect your timer with foam-lined interior, Model CC-SYS5
- Training Keyboard, simulate touchpad and button inputs, Model TK-1
- Relay Judging Platforms
- Judging Terminals

Model CC-SYS5

Model TK-1

A Few Timing Configuration

Possibilities

- Manual Button System for 6, 8, or 10 lanes.
 - Touchpad System for 6, 8, or 10 lanes with one button backup timing.
 - Touchpad System for 6, 8, or 10 lanes with multiple button backup timing.
 - Touchpad System for 6, 8, or 10 lanes with relay judging platforms.
- NOTE:* All Systems Fully Compatible with COLORADO TIME SYSTEMS Start Systems, Scoreboards and Touchpads.

Specifications are subject to change without notice.

Timing swimmers for over twenty years.

Over Twenty Years of Aquatic Sports Timing

Since 1972, Colorado Time Systems® has provided accuracy, reliability and simplicity in sports timing technology. Our fifth generation timer, the innovative SYSTEM5, offers large memory capacity, a full matrix display and an extensive array of customizing options. Our tradition of excellence in sports timing continues with the advancements incorporated in the SYSTEM5.

- ✓ Pre-programmed event sequencing with customizing capabilities
- ✓ Large on-screen display with "windows" formats
- ✓ Meet management interface port for PC download
- ✓ Simple, inexpensive software upgrades
- ✓ On-screen warning messages to assist operator
- ✓ Automatically flags 3/10th second discrepancy
- ✓ Additional sport programs available
- ✓ Memory capacity to over 500 races
- ✓ System self-diagnostics
- ✓ Attractive, compact and portable
- ✓ Automatic and semi-automatic relay judging option

System 5 Backpanel

Multiple inputs and outputs provide for an external printer; two ports for meet management interface, scoreboard interface, expansion port for other sports, and separate swimming I/O for far-end splits.

External Printer Capability

SYSTEM5 interfaces to any full-size IBM compatible printer for clear, easy to read customized print-outs. Print race results, splits or an entire condensed meet summary at any time during or after the event. Provide your own printer or select a printer through Colorado Time Systems.

call (800) 279-0111**

Adjustable Full Matrix LCD Display

The SYSTEM5 screen is a full-size LCD display providing complete race information including our "mini scoreboard" feature. A contrast control assures clear, crisp images in any environment.

Additional on-screen windows allow selections for events, equipment options, and self-diagnostics for the timer, touchpads, cables, scoreboard and buttons.

The SYSTEM5 operates up to 40 hours on eight "D" batteries with on-screen gauge to monitor power reserve. A 115V wall transformer is included as an alternate power source.

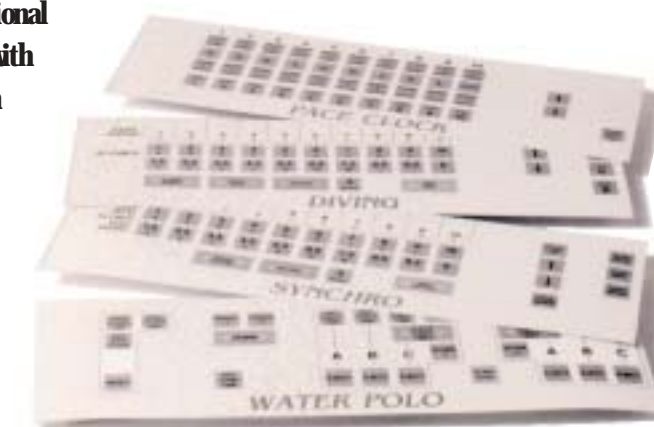

System 5 Components

Colorado Time Systems has engineered our systems to be fully compatible with each generation of timers, start systems, scoreboards and touchpads. So your SYSTEM5 will interface with all your Colorado equipment.

Optional relay judging platforms provide a fair and accurate way to judge relay starts. The platform automatically compares the touch of an incoming swimmer with the starting swimmer's time of departure. Contact your Colorado Time Systems Sales Representative for information.

Multi-Sport Options

Swimming and manual diving programs are standard. The SYSTEM5 offers optional changeable keyboard inserts and software programs for additional sports including water polo, synchronized swimming, pace clock and additional hardware for automatic entry of diving scores. As with all Colorado systems, these programs interface with our 3009 and 4009 series scoreboards.
