

WATER POLO

OTTER scoreboards are an ideal solution for tight spaces or use as an auxiliary scoreboard.

Key Features:

Compact

Half the width of standard LED-R scoreboards.

Bright LED digits

Displays GAME TIME, HOME, GUEST, PERIOD, TIME OUTS LEFT, and SHOT TIME. Digit brightness automatically adjust to ambient light.

2.4GHz integrated wireless

Operating distance up to 1,000 feet, with 12 independent channels and 16 independent networks per channel that provide reliable communication for up to 192 separate matches at a facility.

Indoor or outdoor use

Weather-proof digits and electronics are housed in a powder-coated aluminum chassis for excellent corrosion resistance.

WATER POLO

Specification:

Part number:

MS-0140

Overall dimensions (W x H x D):

4.0' x 3.5' x 4.25" (1.2m x 1.1m x 10.8cm)

Weight:

50 lbs (22.7kg)

Digit size:

5" (12.7cm)

Power:

115VAC~230VAC, 50/60Hz, 100W, 14' power cord with NEMA 5-15R plug; available with international plug (type F, G, or I) upon request

Construction & mounting:

- Scoreboard assembly consists of a single 5052-alloy aluminum display chassis with internal digit brackets.
- High-strength polycarbonate digit covers protect digits and antenna from weather and impact.
- Scoreboard is shipped as one piece for ease of handling and installation.
- Various mounting options allow for the scoreboard to be mounted directly to a flat wall, corner wall, vertical beam, or portable caddy. Mounting tabs are attached to the board in one of three locations. Simply lift the scoreboard into place, where it is then easily bolted to the wall or support structure.

Service access:

- All digits and electronic components are accessed through the front-face of the scoreboard.
- Digit covers are secured by two removable end caps.

Operating temperatures & product safety approval

- -41 - 131° Fahrenheit (-5 - 55° Celsius)
- CETLus, FCC, and RoHS compliant
