LED VIDEO DISPLAYS

High Impact Visuals. Dynamic Technology.

Your Trusted Source for Brilliant Video Displays

With 50 years of industry knowledge, we understand that you have a commitment to provide your athletes, coaches, and fans with an exceptional event. We look forward to making your vision a reality with a superior display that combines both form and function to bring you consistent, reliable performance, and an effortless experience.

Enhance. Engage. Enjoy.

Video displays are capable of displaying text, scoring data, animations, live video, video replays, and more.

Premier athletic venues throughout the world are choosing this dynamic technology to enhance their facility each and every day.

Unique Features

- *Indoor or Outdoor*
- *Modular Design*
- *Conformal Coated*
- *4mm - 12mm SMD (Indoor or Outdoor)*
- *Multiple Video Inputs*
- *DisplayLink+ Software*
- *Versatile Display Controller*

Versatile Display Controller

- Video inputs include (1) HDMI 1.3 (IN & LOOP), (1) HDMI 1.3, (1) DVI (IN & LOOP), (1) 3G-SDI (IN & LOOP); supporting input resolution up to 1920x1200 @ 60Hz; inputs can be scaled point-to-point according to the video display resolution
- Seamless high-speed switch and fade-in/fade-out effect
- PIP size and location can be adjusted on the fly
- True color reproduction through implementation of white balance calibration and color gamut mapping based on different features of LEDs used by screens
- Loading capacity of 2.3 million pixels
- All system functions, including video configuration and switching can be accomplished using jog dial and macro buttons

“The new video display is big, bright, it pops, and there are so many incredible things that we can do now.” -- John Mihevic, Aquatic Director - Miami University
